

EARLY BIRD		
Program Description	Schedule	Price
Montessori teachers provide a peaceful morning transition for children who arrive early. Weather permitting: This time is spent outdoors. Enrollment not required for this program.	M – F (as needed) 8:00 – 8:30 drop-off	\$15.00 per day Billed Monthly

PRE-PRIMARY		
The Montessori Toddler/Pre-Primary Program is open to children ages 18 months through 3 years old. We offer a full day (9:00 – 3:00) program as well as a half-day (9:00 – 12:00) program; five day schedule only .		
Program Description	Schedule	Tuition*
The Pre-Primary Montessori environment capitalizes on the young child's interest in imitating the activities of adults while developing their concentration, self-control and motor skills. The guides introduce the children to the carefully prepared environment and support them as they embark on their Montessori experience. Children receive lessons, learn how to complete a work cycle, develop social skills, and so much more. We strive to develop the "whole child" by providing guidance in all areas of the Montessori curriculum such as language, math, sensorial and culture. Our guides have perfected the delicate balance between freedom and limitations by providing just the right amount of structure and support during the child's journey towards independence. In addition, we help to cultivate a strong relationship with nature by weaving the outdoors into daily lessons. This is an opportunity for our youngest learners to explore, discover and categorize the outside world. Full Day includes the Rest & Sleep Program.	M – F (Full Day) 9:00 – 3:00 pm	\$14,200
	M – F (Half-Day) 9:00 – 12:00 pm *Limited Spaces	\$8,700

PRIMARY		
The Montessori Primary Program is open to students from 3 years of age (by September 1) through Kindergarten. The program is a full day (9:00 – 3:00); five day schedule only .		
Program Description	Schedule	Tuition*
The Primary Program is a three-year, full-time program for children ages three to six. We live our mission which is to truly "follow the child". Regardless of age, the guide introduces lessons based on interest and individual readiness. The lessons begin with concrete experiences of varying concepts (whether it be shapes, the decimal system, or square root) and systematically move to the abstract. Includes Rest & Sleep Program or Mindfulness Program (based on age and readiness) if not enrolled in Kindergarten.	M – F (9:00 – 3:00 pm)	\$12,200

KINDERGARTEN		
The Montessori Kindergarten Program is a full-day program open to those students eligible for Kindergarten. Children are considered as individuals and Kindergarten readiness is based on several variables, including social, emotional, and academic development.		
Program Description	Schedule	Tuition*
This "capstone" year offers the opportunity to use advanced Montessori materials while still allowing time for exploration. Our class size is small, intimate, and provides a unique individualized experience. The Kindergarten year is especially important because it allows the children to step into a leadership role in their morning Montessori environment (Primary) while experiencing a more collaborative and rigorous afternoon with their Kindergarten peers. This includes private yoga and art classes. We are committed to helping the child foster a strong relationship with nature, community, and self. Every year the children participate in outdoor studies while also embarking on in-depth studies of various cultures. This program includes a Primary mixed age morning from 9:00 – 12:00 with a Kindergarten only afternoon from 12:00 – 3:00. **Kindergarten students are eligible for busing from the school district in which they live.**	M – F (9:00 – 3:00 pm)	\$12,200

Afternoon Programs (based on age and readiness) include:

REST & SLEEP PROGRAM	
Program Description	Typically for children under 4 years old
The Rest & Sleep Program (1:00 – 3:00 pm) follows the same Montessori philosophies and consistent approach as all our other classes. The children are seen as individuals who take comfort in a variety of rest/sleep techniques. Some children sleep everyday while others use this as a quiet time to relax and recharge or make calming work choices. Our nap guides begin to set the mood for rest time in advance and always create a peaceful atmosphere that helps the children naturally welcome rest. We encourage all our young Montessori children to participate in rest/sleep. Every child benefits from a consistent rest/sleep schedule during this age of development. Those children who end their morning with an afternoon rest can return home at the end of the day feeling revitalized.	

MINDFULNESS PROGRAM	
Program Description	For non-Kindergarten children 4 years old and up
The children's day is balanced with a Mindfulness afternoon program (1:00 – 3:00 pm) that enriches and supports the Montessori experience with STEAM curriculum and private yoga class. This includes afternoons devoted to ingenuity, collaboration, experimentation, critical thinking and engineering. This magic occurs indoors and outdoors on our campus. We believe a strong relationship with nature is vital to developing the "whole child" and strive to incorporate the outdoors into every facet of the child's school experience.
